OMAYMA ALAOUI

ENGINEERING STUDENT · COMPUTER SCIENCE

ENSEEIHT / TOULOUSE / FRANCE

CONTACT

07 53 77 13 29

omaymaalaoui192@gmail.com

Toulouse, France

SKILLS

- Python
- MATLAB
- Dynamic programming
- Problem-solving
- Mathematics

LANGUAGES

- Arabic
- French
- English
- German

INTERESTS

Running, fitness, basketball, volleyball, walking; books and technology.

PROFILE

First-year Computer Science engineering student at ENSEEIHT, following intensive Mathematics and Physics preparatory studies at LYMED in Morocco. Curious and analytical, I am eager to develop my computing skills and explore real-world applications.

EDUCATION

2026 — present

ENSEEIHT · Toulouse

Engineering degree program, Computer Science (first year).

Before 2026

LYMED · Morocco

Intensive preparatory classes, Mathematics and Physics (MP).

High School Diploma

Morocco

Mathematical Sciences A.

ACADEMIC PROJECT

TIPE · Traffic flow regulation using graph theory

Explored local and network-wide traffic optimization through queueing models, waiting-time analysis, graph theory and Braess’s paradox.

OBJECTIVE

Gain academic and professional experience in computer science, explore emerging fields and contribute to meaningful engineering projects.
